REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The allowability resides in the overall structure of the device as recited in independent apparatus claim 46 and in the overall method as recited in the independent method claim 62, and at least in part, because claim 46 recites: "an electron conducting material having length and width dimensions larger than the depth dimension and [...] disposed such that heat transfer from the cold region to the hot region is along the length or width dimension of the electron conducting material", and claim 62 recites: "an electron conducting material with length and width dimensions larger than the depth dimension and [...] transferring heat from the cold region to the hot region along the length or width dimension of the electron conducting material". The aforementioned limitations in combination with all remaining limitations of the independent claims 46 and 62, are believed to render the claims and all claims dependent therefrom patentable over the art of record.

2. Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
